

The Colorado Hospital Association (CHA) is the leading voice of the state's hospital community, representing more than 100 member hospitals and health systems. Through CHA, Colorado's hospitals work together in their shared commitment to improving health care in the state. Our focus areas include:

## POLICY & ADVOCACY

Educating state and federal policymakers about the value Colorado's hospitals provide to their communities, payment reform, regulatory streamlining and expanding health care coverage.

## CLINICAL EXCELLENCE

Working to improve the culture and quality of care in hospitals through education, technical support and evidence-based initiatives.

## DATA ANALYTICS

Using data, the Center for Health Information and Data Analytics predicts the effects of potential policy changes on hospitals and studies variations in clinical practice.

## FINANCIAL POLICY

Providing members with financial updates and information on payer functions, government reimbursements and health care reform efforts.

## EDUCATION & EVENTS

Offering a wide range of programs and events including the CHA Annual Meeting, CEO Forum, Patient Safety Leadership Congress, Rural Hospital Conference and Western Regional Trustee Symposium.

## RURAL HEALTH & HOSPITALS

Providing resources to help rural hospitals address the unique needs of their communities and maintain access to high-quality and affordable health care.

## CHA SHARED SERVICES

Offering services to support hospitals including CHA Financial Advisors, Career Center, Workers' Compensation Trust and unemployment representation.

## TELEHEALTH NETWORK

Supporting the sharing of data and electronic health records, the Colorado Telehealth Network connects hospitals, clinics and behavioral health centers through a secure network.

## EMERGENCY PREPAREDNESS

Supporting Colorado hospitals' emergency readiness and response efforts through training, education and resources.
