

Discussion Points

1. Do people in our community see the hospital as being community centered?
2. Can we describe our community partnerships and their value and results?
3. What are we doing to ensure that the entire organization embraces its community accountability?
4. Who do we partner with to help us achieve our community-based mission?
5. Is community health of part of our strategic agenda? How much are we investing in it? What kind of returns are we getting?
6. What is the individual community advocacy role of every trustee?
