

From: Kathy Osborn, Director

Subject: CTN is now CHA Broadband Services

As you know, Colorado Telehealth Network (CTN) - in partnership with CenturyLink - collectively managed a broadband network known as CTN 1. This network connected more than 200 health care organizations in the Rocky Mountain region. In 2017, the decision was made to phase out of the CTN 1 network on June 30, 2019. As the network has now sunset and the Colorado Telehealth Network name was branded with the network name, CTN is re-branding. Colorado Telehealth Network is delighted to announce a new era for our organization as we will now be known as Colorado Hospital Association (CHA) Broadband Services.

Utilizing the Federal Communication Commission (FCC) Rural Health Care (RHC) program, CTN has been Colorado's lead consortium administering federal broadband subsidies for health care entities for more than 10 years. Over time, as technology and the RHC program has evolved, it is only fitting that our organization does as well. CHA Broadband Services will continue to serve our members by leveraging the RHC program to maximize savings for members. We are a highly experienced team with vast knowledge on administering this federal program and we will continue advocating and providing superior service to our members.

With this branding change, expect our relationship to continue without interruption. We are honored to have you as a valued member of our consortium, and we will be reaching out to you soon to meet to discuss the 2020 RHC application process.

If you have any questions regarding this announcement, please feel free to email or call me directly at 720.330.6065. CHA Broadband Services looks forward to continuing the commitment of ensuring that non-profit health care entities are maximizing funding subsidies for their broadband connectivity.

Kathy L. Osborn, MBA

Director, CHA Broadband Services
