## New Data Portal for All Colorado Hospital Association Members

### Financial Data

Hospitals participating in Colorado Hospital Association's DATABANK program, which collects hospital financial data, have access to the DATABANK application in ODHIN. This application gives executives the ability to analyze their hospitals DATABANK metrics rolled up into actionable financial indicators. Additionally, the data is able to be trended up 30 years to show changes in financial performance based on hospital utilization.

The Key Performance Indicators report shows a hospital's financial indicators such as bad debt, charity care, operating margins and expense breakouts. This is key in assisting hospitals make financial decisions on large and small scales.

To schedule a complimentary 30-minute consultation to learn more about how ODHIN can help, contact the CHA data team at [support@mychadata.com](mailto:support@mychadata.com) or visit [www.cha.com/ODHIN](http://www.cha.com/ODHIN) to learn more.
