VIRTUAL ATTENDEE

Join CHA and Polsinelli to look at the many regulatory and policy changes that happened or are coming for hospitals and health systems. The 2023 Regulatory Compliance Summit will be a hybrid, half-day program to give you up-to-date information on key health regulatory issues like the Colorado Option, compliance hot spots, and behavioral health reform.

7:30 a.m. Registration & Breakfast

8:30 a.m. Welcome

8:40 a.m. **Fraud, Abuse, and Antitrust Updates**

Government enforcement in the health care industry remains a top concern for providers. This session will provide a summary of key fraud and abuse cases and noteworthy settlements in 2023, preview enforcement trends for 2024 and beyond, and discuss how hospitals may be impacted by changing antitrust guidance from federal agencies.

9:20 a.m. **Public Option Update**

This past summer, the first public hearings mandated by the Colorado Option were scheduled by the Division of Insurance based on 30 allegations made against hospitals, yet all were ultimately vacated. This session will explore what happened and the implications for the future of the Colorado Option.

9:45 a.m. **Medicare, Medicaid, and Payment Update**

Medicare and Medicaid patients generally make up about two-thirds of a typical hospital's patient volume. This session will provide key updates on current state and federal activities impacting Medicaid and Medicare clients and providers, including audit activity and inpatient specialty drug reimbursement changes.

10:30 a.m. Break

10:45 a.m. **Behavioral Health Reform**

Colorado is currently reforming its entire behavioral health system. With such huge transformation occurring, this session will provide a high-level overview of what hospitals should be tracking in this changing landscape, including changes to involuntary mental health hold standards starting Jan. 1, 2024.

11:15 a.m. **Compliance Hot Spots**

Hospitals are facing an incredibly busy regulatory agenda in 2024 with numerous implementations and items to track. This session will provide a recap of regulatory items from the past year and a high-level preview on what is to come in 2024.

Noon Close

Noon – 1 p.m. **Networking Lunch**

* CLE credits pending
